AltED 2025

Last year in MIL,*

AltED is an education initiative, operating under the DPML Learning Foundation, a non-profit organisation dedicated to creating informed communities. We focus on making Media and Information Literacy (MIL) accessible to children in schools and to adults within civil society organisations.

Today's information landscape is driven by attention-based economies and amplified by the algorithmic design of social media. Alongside easy access to information and opportunities for connection come the serious challenges of misinformation and disinformation, hate speech, cyberbullying, trolling, and digital manipulation.

In 2025 we reached **1250+** individuals,

completing nearly **400** session hours!

25 interventions with

15 new organisations

And in the process we developed,

2 learning melas

&

2 art interventions

1 fellowship

1 book

3 assessments

All with a team of **9**

Prabha Vilas
Work for Equality

AltED's Media Literacy training has been a powerful learning experience for our team.
It helped us understand, in a scientific and practical way, how social media influences behaviour and how mis-information spreads.

वर्कशॉप से मुझे समझ आया कि सोशल मीडिया हमारी जिंदगी पर कैसा प्रभाव डाल रहा है। क्या प्रशिक्षण में हमें गलत सूचना, सूचना, प्रचार, तथ्य और राय का अंतर, पूर्वाग्रह और प्रभाव के बारे में सिखाया गया है।

सबसे महत्वपूर्ण शिक्षण तथ्य-जाँच रही, जिसमें क्या, कब, कहाँ, कौन और कैसे के माध्यम से किसी भी समाचार की सच्चाई जान सकते हैं। आज के समय में जब राजनीतिक प्रचार फेल हो रहा है, ये प्रशिक्षण बहुत उपयोगी है।

As we close the year, we thank our partner organisations, schools, and communities whose collaboration made this journey possible.

This year marked an important milestone where we learned, grew, and expanded. As we look ahead, we remain committed to strengthening our efforts to build a media literate society, and hope to create more meaningful collaborations.
